CDCC INSTRUCTIONS FOR SUPERVISION OF NOVICE SHOOTERS

Under guidelines set by the Police and CDCC, the following procedures are to be used when introducing novices to shooting at this Club.

1. The Novice is to be briefed on the safety aspects:
 - a. The correct mounting of the gun is to be advised and stressed by the supervising member.
 - b. When loading takes place the trigger finger is to be well clear of the trigger.
 - c. Should the gun not fire on the depression of the trigger, the Novice is to hold the gun securely pointing in a safe direction downwards for 30 seconds as if the gun may fire.
 - d. After 30 seconds, the supervising member/instructor is to remove the gun from the novice and unload in a careful manner.
 - e. Should the gun misfire (faulty cartridge) then the barrels are to be checked prior to handing the gun back to the novice.
2. The novice is not to hold any ammunition during the round. The supervising member is to load the gun only when the novice is in a safe position in the cage.
 - a. Only one cartridge is to be loaded into the correct barrel for the novice at a time.
 - b. When the Supervising member is satisfied the novice is safe, the novice will be permitted to fire a pair.
3. The supervising member is to be in a position to be able to take immediate control of the gun within the cage.

I _____ Member No. _____

Agree to the above procedures whilst instructing the following individuals: Novice(s):-
